

Census Dates & Fees

A census date is the last day you can withdraw from a fee period without incurring a VET Student Loan (VSL) debt. If you remain enrolled after this date, you will incur a VSL debt for that fee period.

For more information, including how to withdraw, please refer to our VET Student Loan Information Guide available on our website.

Course Fee Structure

Fee periods represent different parts of the course and reflect the structured delivery of training and assessment activities. Fee Period 1 represents the initial phase of the course and includes structured, face-to-face theory delivery and preparatory practical training activities.

The course is delivered using an integrated model, where knowledge and practical skills are developed progressively across the duration of the program.
